July 2015.

**Incursion: Mad About Science ‘Wicked Weather’**

**Purpose:** Our Inquiry focus for Term 3 is “*Whatever the Weather*”. Students develop the ability to know and understand different weather conditions and how they occur, to know the terms and vocabulary associated with weather, to predict and detect patterns in their observations of weather, and to learn about the effects of weather on people and our environment. This unit aims to encourage and support children’s curiosity about natural weather phenomena and give them opportunities to investigate, measure and explore the weather and how it relates to them.

As an introduction to our Inquiry, we have booked a Wicked Weather Workshop through Mad About Science in Schools. The workshop introduces students to investigations around the atmosphere, clouds, rain and snow. They focus on inquiry skills, demonstrations and hands-on experiments while learning about weather in the real world around them.

**Date:** Thursday August 6th, 2015

**Time:** 60 minute session

**Venue:** Killara Primary School

**Cost:** $10.00

Please complete the form below and return with payment by Monday August 3.

1/2 Team

Phil Clinkaberry (Principal)
